Product Overview 2026

AlwaysReady Care

Free Compliance Software for Care Homes, Aged Care Facilities & Rest Homes

UK • Australia • New Zealand • Ireland

The Problem We Solve

Care homes must prove to government inspectors that they provide safe, quality care. But their evidence is scattered across WhatsApp messages, paper notes, Excel files, and emails. When an inspector arrives, managers spend hours pulling records together. Many facilities fail inspections — not because of bad care, but because of bad documentation.

This is a universal problem across 4 countries:

- **UK:** The Care Quality Commission (CQC) inspects 29,700+ care homes
- **Australia:** The Aged Care Quality and Safety Commission assesses 3,600+ facilities under new ACQS 2025 standards
- **New Zealand:** Designated Auditing Agencies certify 900+ rest homes under NZS 8134
- **Ireland:** HIQA inspects 580+ nursing homes under National Standards

What AlwaysReady Care Does

One simple app that records, organises, and exports compliance evidence. It works alongside whatever system the care home already uses — no need to replace anything. Think of it as a "compliance layer" on top of their existing setup.

1. **Record Evidence (60 seconds)**
   A care worker opens the app on their phone. They pick a template (medication, personal care, meals, incidents, etc.), fill in what happened, and submit. Done in under a minute.

2. **AI Auto-Tags It**

The app reads the note and automatically figures out which compliance category it belongs to (e.g., "Medication Management" or "Falls Prevention"). It also flags any risks — like a fall or an injury — and suggests follow-up actions.

3 **Manager Reviews**

Senior staff review the evidence. Good records get approved. Incomplete ones get sent back with feedback. Only approved evidence counts towards the compliance score.

4 **Dashboard Shows Readiness**

A live dashboard shows a percentage score — "You are 67% ready. These 7 areas have gaps." The manager knows exactly what to fix before an inspector arrives.

5 **One-Click Inspection Pack**

When the inspector arrives, the manager clicks one button and downloads a professional evidence pack — all approved records, organised and ready to hand over.

Supported Countries & Frameworks

🇬🇧

United Kingdom

Regulator: CQC (Care Quality Commission)
Framework: 5 Key Questions, 21 categories
Facilities: 29,700+ care homes
Price: Free / £79 per home/month

🇦🇺

Australia

Regulator: ACQSC (Quality & Safety Commission)
Framework: 7 Strengthened Standards, 24 categories
Facilities: 3,600+ aged care facilities
Price: Free / A$129 per facility/month
Bonus: SIRS incident reporting templates

🇳🇿

New Zealand

Regulator: Ministry of Health (DAA audits)
Framework: NZS 8134, 4 standards, 20 categories
Facilities: 900+ rest homes
Price: Free / NZ$99 per facility/month
Competition: Almost none

🇮🇪

Ireland

Regulator: HIQA
Framework: 8 National Standards, 20 categories
Facilities: 580+ nursing homes
Price: Free / €89 per centre/month

Why We Win Against Competitors

Feature	Competitors (PCS, Birdie, AlayaCare)	AlwaysReady Care
What it replaces	Your entire care system (rip & replace)	**Nothing — works on top of existing system**
Monthly cost	£400–700+ per home	**Free to start, £79 Pro**
Setup time	Weeks of training and migration	**Minutes — try the demo instantly**
Pricing model	Per user (discourages adoption)	**Per facility (unlimited users)**
Risk to buyer	High — locked into new system	**Zero — cancel anytime, keep your data**
Multi-country	Usually single-country	**UK + Australia + NZ + Ireland**
AI evidence tagging	Rare or premium add-on	**Built in — auto-categorises + flags risks**

Market Opportunity

34,800+
Total addressable facilities across 4 countries

90% cheaper
Than the average competitor pricing

~Zero
Direct competitors in NZ market

ACQS 2025
New AU standards = facilities scrambling for tools
